# ABOUT US!

Started in 2017, we are a small team of hands-on and curious engineers and ops specialists that love manufacturing.

Through strong relationships, we have helped take manufacturers and 3PL's to the next level technologically, operationally, and pragmatically.

Whether it's upgraded services to better serve automotive accounts like BMW or new infrastructure created for dealerships and distribution channels.

Whatever your next challenge may be, we want to help you unlock your full potential.

## **ENGINEERING SERVICES**

Establish or upgrade existing controls for new accounts, reduce failure rates, and implement Just-In-Time

## **DIGITAL SOLUTIONS**

Implement upgraded apps, configurations, and software to increase capacity and reduce manual processes

## **MANUFACTURING SERVICES**

Over 10,000 sq ft available for assembly, kitting, laser cutting, and storage/warehousing
